Howes H. Norris.

21st February. 1861.

at Eastville Va.

I used this book when ashy as a sort of diary and record book. It has been my fathers log kept on board Ship Sharon on a whaling voyage.

The log is intact

August 10. 1897.

Howes Norris.

Ships Sharon of Fair Haven on a Whaling Voyage

Tuesday May 25th 1841 — Fresh breezes from S.W. all these 24 hours at 1 P.M. took our anchor, & made sail out the River & Bay in company with Ship Mercury — at 12 merid. Cuttyhunk bore S.E. distant 3 miles

Lat. 1:46 North Long. 151:10 East—

Sunday 5th

Begins with light breezes from West—Steared E.N.E.—at 5 P.M. took a sight from East, Stood N.N.E.—at 7 wind hauled S.E. Steared E.N.E. & E. by N.—Middle and Latter parts fair weather—Latter part headed N.E. wind E.S.E.
Lat 2:00 North Long. 151:55 East.

Monday 6th

198 days Out.

All these 24 hours light breezes from N.E. to S.E. worked Eastward under all Sail taking the advantage of the shifts of wind.
Lat. 2:33 North Long. 152:25 East

Working Eastward

Tuesday Dec. 7th 1841 — Light variable airs from all points of the Compass and intervening Calms all these 24 hours - took the advantage of every shift to get Eastward but find by Observation that we have made but one mile. — Current setting N.W. one mile per hour —

Lat. 2.24 North Long. 152.26 East

Wednesday 8th — All these 24 hours Squalls from N.E. to S.E. with heavy showers of rain and intervening Calms took every advantage of the shifts of wind but scarcely held our own owing to a N.W. current

Lat. 2.15 North Long. 152.24 East.

Thursday 9th — First part light baffling airs with heavy showers of rain — Middle part strong breezes from E.N.E. to East. lay up from S.E. to S.S.E. — much rain — Latter part fresh breezes and clear — lay from South to S.S.E. — have had a strong Westerly Current the last 24 hours - find it very difficult to get East —

Lat. 1.22 North Long. 152.14 East.

Friday 10th — All these 24 hours fresh breezes from the Eastward and fair weather — lay up South. S.By E. and S.S.E. — a strong Westerly current —

Lat. 0.08 South Long. 152.02 East.

Saturday 11th — All these 24 hours light breezes from the N. Eastward and pleasant — lay up from S.S.E. to E.S.E. — all Sail set and trimed to the best advantage — the Westerly current still continues but not quite so strong

Lat. 1.00 South Long. 152.35 East.

Sunday 12th — Light airs from the Eastward and fair weather at 9 P.M. tacked North — at 3 A.M. tacked South —

Lat. 1.17 South Long. 152.38 East. —

Monday Dec 13th 1841

Light variable winds from the Eastward (are) pleasant tacked occasionally to take advantage of the shifts of wind but made but little progress to the Eastward — saw Finbacks, Grampuses & a plenty of small fish. Hands employed at Ships duty — very little if any current this 24 hours.

Lat. 1:23 South Long. 152:55 East

Tuesday 14th " First part light breezes from N.E. lay up E.S.E. — Middle (and) Latter parts calm — repaired the Fore T. G. Sail.

Lat. 1:42 South Long. 153:09 East.

Wednesday 15th " First (and) Middle parts light breezes from the N. Eastward, lay up East. Middle part much the same — at 10 P.M. tacked to N.W. to avoid Lyras Shoal — at 3 A.M. tacked Eastward — Latter part Squally — wind from N.W. Steered N.E. a Southwesterly Current.

Lat. 1:45 South Long. 153:25 East

Thursday 16th First part light airs from N.W. (and) calms. Steered N.E. — at 6 P.M. struck soundings on Lyras Shoal (and) as we were in Lat. 1:48 S. & Long. 153:30 I Judge it to be correctly laid down — Lat. of the Shoal as given by the Capt of the Lyra. 1:48 South. the N.E. part is extended in a S.W. direction to Lat. 1:54 & (and) places the Middle of the Shoal in Long. 153:28 East. — Middle part light winds from the Eastward stood N.N.E. at 3 A.M. wind hauled North tacked East — Latter part pleasant with a light breeze from N.E. — Ship heading E.S.E. — while on the Shoal tried the current (and) found it setting S.W. by S. 1½ miles per hour — the bottom was coral — Hands employed at Ships duty. —

Lat. 1:44 South Long. 153:45 East —

Got soundings 35 fathoms on the N.E. part of the Lyras Shoal.

From thence Eastward

Friday Dec 17th 1841	Light variable winds from S.S.E. to N.N.E. round to the Eastward and intervening calms took every advantage of the shifts of wind to gain gain but made but little progress. a long tedious passage having light winds and calms and Westerly currents Lat. 1.40 South Long. 154.00 East
Saturday 18th	First part wind from the Eastward stood Northward Middle part Calm with the exception of one or two light squalls from the Northward stood Eastward – Latter part wind from East, stood N.N.E. up on a wind under all Sail – rainy weather Lat. 1.26 South Long. 154.15 East.
Sunday 19th	Light airs from the Eastward and calms all these 24 hours with a strong Westerly current – lost ground Lat. 0.55 South Long. 154.06 East.
Monday 20th	First part Calm – Middle part light breezes from North – Latter part fresh breezes with Some rain – Steered East under all Sail Lat. 1.01 South Long. 154.25 East.
Tuesday 21st	all these 24 hours calm and a Westerly current lost ground Lat. 0.46 South Long. 154.15 East.
Wednesday 22nd	Light breezes from the S. Eastward all these 24 hours – Stood by the wind to the N. Eastward a strong westerly current – lost ground Lat. 0.05 South Long. 154.10 East.
Thursday 23rd	Moderate breezes from E.N.E. to S.E. by up from North to E.N.E. under all Sail – a strong Westerly current lost ground Lat. 0.24 North Long. 154.05 East.

Ship Sharon

Friday Dec 24th 1841

Light breezes from the Eastward and pleasant all these 24 hours - lay up North & by E. and N.N.E. carried all sail - the current set West 15 miles this 24 hours - nothing more worthy of remark -

Lat. 1:37 North Long. 154:00 East.

Saturday 25th

Fresh breezes from the Eastward with a heavy swell from the Northward - Stood Northward - lay up from North to N.E. - carried all sail

Lat. 2:47 North Long. 154:22 East.

Sunday 26th

First part fresh breezes from E.S.E. Eastward heading N.E. - Middle part squally - Latter part light variable winds with showers of rain and intervening calms - at daylight saw a Group of small Islands about 12 miles distant, bearing N.E. worked up towards them and at 10 A.M. they bore N.N.E. 8 miles distant - saw a reef & Breakers from the N.W. part streaching of in that direction 2 of 3 miles - as we could get no nearer to them could not examine them so closely as I had wished but there apeared to be about 8 or 10 in number surrounded by a reef, the whole extent of which I should judge to be about 9 miles N.W. and S.E. the Middle of them by Obs. is in Lat. 3:13 N. Long. by Chronometer agreeing with Lunar Observations taken a few day previous 155:06 East - 18 canoes came off heveing in them from 1 to 12 men, in all about 100 - wheather these are Montteverdeson Islands I do not no but if they are the same they are very eroneously laid down on the Charts - the natives appeared friendly but we could not get any of them to come onboard -

Lat. 3:45 North Long. 155:02 East.

Pacific Ocean —

Monday Dec 27th 1841

First part light breezes from the Northward and rainy at 4 P.M. the canoes left for the shore — steered East — Middle and latter part fresh breezes from the Eastward and squally — at 12 Midnight tacked Northward — at 3 tacked E.S.E. at 10 tacked North at 11 tacked Eastward — No Observations —

Lat by account 3:15 North Long. 155:30 East.

Tuesday 28th

All these 24 hours wind variable between N.N.E. & S.S.E. with squally rainy disagreable weather and a heavy swell from the N. Eastward — tacked ship several times to take advantage of the Ships of wind to gain Easting — took in and made sail as become necessary —

Ship Sharon at Strongs Island

Thursday 6th Oct. 1842

First (and Middle parts in from S.E. Thence Westward – Latter part wind S.S.W. steered West at Noon Observed in Lat. 5:15 N. the West end of Strongs Island bearing North 4 miles. which will make the centre in 5:23 N. (and Long. by Chronometer 163:10 East.

Friday 7th

First part wind from S.W. (and pleasant) run round the Island (and at 5 P.M. got abreast of the harbour but not in time to go in there see whether it is a suitable place to Anchor (and recruit – several natives came off with oranges from the Shore stating that the water was good (and plenty of refreshments to be obtained – but there is no trusting them. – at 6 P.M. hauled by the wind to the W.N.W. – Middle (and Latter parts fresh breezes from the Southward Steered W. by North – Stood down on all –

Lat. 5:58 North Long. 162:00 East.

Saturday 8th

Sea – and Lat. 6. 31 N. & Long. 161. 45 E.

First (and Middle parts fresh breezes from the Southward (and equally steered West by ~~S~~ W. N. – Latter part light breezes –

Lat. 6:35 North Long. 161:10 East.

Sunday 9th

First part light airs from the Southward – stood Westward – at 6 P.M. had a squall from W.N.W. took in the S.W. at 12 Midnight wind hauled North and steered W. by S. – at 7 A.M. wind hauled to West – headed S.S.W. – at 12 noon nearly calm. – at 9 A.M. saw land probably the Islands that are placed on the Charts as Mac askills but very erroneously for we were nearly on the spot they were in and the[re] is not but just discernable from the Mast head –

Lat. 6:10 North Long. 161:02 East.

Monday Oct. 10th 1842

First part of these 24 hours calm. Middle & Latter parts light airs from the East to [illegible] calms steered West but made Easting having a current setting in that direction — repaired the R.D. &c.

Lat. 6:57 North Long. 161:0 East

Tuesday. 11th

First part airs from S.E. to S.W. (and) squalls steered West 1 P.M. made Macaskills Islands bearing West about 30 miles distant — Middle part close in with the Islands, the wind light from the Southward (and) variable at 7 A.M. passed within two miles of the Islands — (as) many natives on the beach steered W. by N. W. — at 11:30 A.M. saw Sperm Whales lowered the Boats (and) gave chase — I make the Islands in 6:20 North Lat — (and) Long. 160:40 East.

Macaskills Islands E. by S. 15 miles —

Wednesday 12th

First part pleasant breezes from S.S.E. at 4 P.M. the Boats returned unsuccessful — Middle part squally — at 3:30 A.M. made Arlingtons Islands Latter part pleasant — at 7 several Canoes came off with Cocoanuts bananas and women all for sale for a small bit of iron hoop —

make the Islands in Lat. 6:42 North Long. 159:42 East, steered W by S. — 5 P Lat. 6:51 North Long. 159:34 East. —

Thursday. 13th

First part fresh breezes from the Southward steered W. by N. — Middle (and) Latter parts calm — bent the Chains &c

Lat. 6:56 North Long. 159:11 East.

Friday 14th

First part light breezes from North at 2 P.M. made Ascension bearing West steered towards it Middle (and) latter parts light airs (and) calms. — at 11 A.M. took a Pilot the body of the Islands bearing W. W. 15 miles.

Saturday. 15th
of 1852

First (or Middle parts light breezes (and rainy
working towards the harbour – latter part
pleasant with light breeze from the South
at 11 A.M. came to anchor in the west
harbour of the Island of Ascension G[illegible]
took in a supply of water, vegetables, fruit
&c. &c. [illegible] 27th having lost Men by desertion
which we could not get back again –
consequently we are very short handed on
board & have to work at a different
rate to what we can [illegible]
if not we shall have to go at it
Bar of it (or perhaps Sydney for
a crew – Ascension would be a good
[illegible] for a ship to recruit were it not
for the white men that lives there – but
they are the greatest pack of Rouges &
ever met with which causes a great deal
of [illegible] makes it dangerous
for a ship to anchor – at 10 A.M. of
Thursday. got underway & put out a Pilot flag
the Pilot or person that calls himself
one (and once more [illegible] arrives at
[illegible] one of the Vagabonds that
lives on the Island
[illegible] Cape the Reef.

28th All these 24 hours light breezes from N.W.
steered S.E. at Noon the Island of W.
about 40 miles distant. [illegible]

29th [illegible] part very light airs from N.W.
thence N.W. thence [illegible] latter part calm
Ascension [illegible] bearing about
N.W. nothing more worthy of remark –
Lat 6° 11 West Long: 15° 55

Remarks &c.

The Nickel Cent was coined in connection with the Copper in 1856 & 1857: the Copper was then discontinued, the Cent of ours. of 1858 is very common, a Spread Eagle, but the cent of that year with an Indian Head is very Rare. The cent of 1856 is also very rare—

Remarks &c.

In 1815 no cent was coined. This is much disputed, but the evidence is satisfactory; the mint records show no coinage of cents: Every cent bearing that date is a manifest counterfeit -

The copper cent was changed in 1858 to Nickel Cent. both kinds were coined in 1856 & 1857. The copper of 1857 is scarce -
